

Hypnotherapy Diploma Course

The Hypnotherapy Diploma course:

The **Hypnotherapy Diploma Course** is held over 10 weekends over a period of approximately 10 months and covers the therapeutic use of hypnosis (including NLP - Neuro Linguistic Programming) and specific therapeutic techniques. Continuous assessment is an integral part of the course. This forms a balance of theory and practice and ensures we meet the high criteria required by the Hypnotherapy Society and our external assessors the Medical Hypnotherapy Examinations Board (Registered in England and Wales).

The exam includes written and practical elements set by our external assessors the Medical Hypnotherapy Examinations Board. On successful completion of the course and exam, students will be awarded the Medical Hypnotherapy Examinations Board Diploma in Clinical Hypnosis and are invited to apply for Licentiate Membership with the Hypnotherapy Society .

At the start of the **Hypnotherapy Diploma Course** students are offered the opportunity to be part of our Mentoring Programme. Interested students are matched accordingly to an ex-student of the college who is now working as a Hypnotherapist in order to gain additional support and guidance throughout their studies.
